#### **ABOUT THE CONFERENCE**

#### INTRODUCTION

In many states in Nigeria natural and solid minerals mining, exploration and production constitute an integral part of their economies, promote economic growth and plays a huge role in being a major foreign exchange earner. Nigeria is endowed with abundant mineral resources which could be harnessed for its development.

This mineral deposits were formed at different stages in the geological evolution of Nigeria. Sadly despite this mineral endowment, the nation's mineral sector over the years has failed to meet the expectations of driving economic growth, create wealth, generate employment to the teaming youths, women, fathers, mothers and households resident in Nigeria.

The Minister of Solid Minerals Development, Dr. Dele Alake, has said that the Ministry will add at least 50 percent value to the Nigerian economy, adding that the ministry is poised to attract foreign direct investment to the country. The Minister spoke during the unveiling of the '7 Point Agenda of the Ministry and the Renewed Hope Agenda of Mr President for the Transformation of the Solid Minerals for International Competitiveness and Domestic Prosperity'. The 7 Points Agenda ncludes, the Creation of the Nigerian Solid Minerals Corporation, Joint Ventures with Mining Multinationals, Big Data on specific Seven Priority Minerals and their deposits, 30-day grace for illegal miners to join Artisanal Cooperatives/Body to operate in a regulated environment, Mines Surveillance Task Force and Mine Police, Comprehensive review of all mining licences and the Creation of Six Mineral Processing Centres across the Nation to focus on Value-Added products.

Mica Equity Allocation in Collaboration with the Federal Ministry of Solid Minerals Development Partner to organize a 3-day conference on the aforementioned subject matter to sensitize Nigerians, foreign and indigenous operators, contractors, service providers, legal and illegal miners, big and small time miners, artisanal miners, financiers, host communities and impacted areas, youths, women, households and the overall stakeholders in both the oil and gas as well as solid minerals industry. This will educate them on the opportunities in the said industry, sensitize them on how to pool their strength and expertise together to partake in the business

of minerals resources, it will also inform them on the funding opportunities available to them as well as teach them on how to engage, partner or collaborate with the investors operating or mining in their domain. This will contribute immensely to peace in Nigeria and grant the companies opportunities to do their business in a secured environment, it will help the illegal operators and miners organize themselves to operate in a corporate and regulated environment. It will help them access various funding opportunities available to them including the Federal Government interventions.

#### **ABOUT THE EXHIBITION**

Nigeria is one of the countries with the largest amount of mineral resources/commodities in Africa in it's most diverse form, yet not many people know the said minerals. Many people know the names of these minerals but have not seen them in pictures, images or in their physical raw state.

The Exhibition will grant you an opportunity to showcase these minerals in their physical state, numerous and diverse numbers.

The Exhibition will attract for both the buyers and sellers an opportunity to buy and for those selling an opportunity for sales/marketing.

This Exhibition will bring key investors and stakeholders together especially those researching for the green economy and renewable energy.

The Exhibition will include over 100 minerals/commodities especially those within the confides of energy transition and renewables. Most of the minerals/commodities used to manufacture batteries for cars, watches, phones, planes, ships etc are found in Nigeria in commercial quantities, these includes but not limited to lithium, cobalt, californium etc.

The Exhibition will grant the federal, state and local governments, local and indigenous miners and artisans the leverage to secure investment opportunities from interested investors and stakeholders and this comes as a function of exhibiting at the event for 3 days of the program.

Kindly fill out the form on the website; www.mineralcommoditiesconferenceandexhibition.com and our team will reach out to you to guide you.

Exhibition days, venue and times are the same with that of the conference.
